PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience building production web platforms, REST APIs, admin workflows, and database-backed applications. Built and maintained three live real-estate platforms and contributed to Laravel/PHP, Next.js, React Native, and Supabase projects. Skilled in React, Next.js, TypeScript, PHP/Laravel, Node.js, MySQL, PostgreSQL/Supabase, Git, testing, debugging, and deployment.

EXPERIENCE

- Software Engineering Intern (İME) | FeinSoft - Ankara, Türkiye** Feb 2026 – May 2026
- Developed and debugged authentication, role-based access, forms, admin workflows, REST APIs, database operations, and deployment fixes across Laravel/PHP, Next.js, React Native, and Supabase projects.
 - Delivered client and institutional workflows including file uploads, PDF generation, validation, testing, production troubleshooting, and maintenance.
- Software Developer Intern (Erasmus+) | RE/MAX Wise - Oeiras, Portugal** Sep 2025 – Nov 2025
- Built and maintained 3 live real-estate platforms using Next.js 15, TypeScript, Tailwind CSS, Supabase, Vercel, and GitHub Actions.
 - Implemented reusable components, dynamic routing, SEO metadata, internal linking, accessibility fixes, deployment testing, and build troubleshooting.
- Technical Support Engineer | AFAQY - Riyadh, Saudi Arabia** Jul 2024 – Sep 2024
- Supported 650+ GPS-tracked vehicles by diagnosing platform, device, and data issues.
 - Built dashboards and automated reporting workflows; delivered client training and technical documentation.
- WordPress Developer Intern | NFS Soft - Erzurum, Türkiye** Oct 2022 – Jun 2023
- Built multilingual client websites with WordPress, PHP, HTML/CSS, responsive templates, and cPanel; improved mobile usability, accessibility, page performance, and maintenance.

SELECTED PROJECTS

- BELS Digital Application System | FeinSoft internship project | PHP 8, MySQL, REST APIs, PDO, PDF**
- Built backend workflows for student authentication, multi-step applications, grade entry, file uploads, PDF exam cards, status tracking, and administrator management.
 - Implemented session-based authentication, role-based access, CSRF/CORS controls, input validation, prepared statements, Excel export, and audit logging.
- ErzurumŞikayet - Civic Complaint Platform | FeinSoft internship project | Laravel/PHP, MySQL | erzurumsikayet.com**
- Built the Laravel MVC application from database schema through routes, controllers, middleware, Blade views, and dashboards for users, companies, complaints, comments, categories, districts, moderation, and statistics.
 - Deployed and maintained the public application, handling testing, production fixes, and updates through the end of the internship in May 2026.
- EventSys - Event Management Platform | independent full-stack project | React, Node.js, Express.js, MongoDB, JWT**
- Built authentication, event discovery, ticketing, live weather integration, and administrator workflows.
 - Developed REST APIs, MongoDB models, JWT authentication, and separate frontend/backend deployments.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS
Backend: PHP, Laravel, Node.js, Express.js, REST APIs, authentication, role-based access
Databases: MySQL, PostgreSQL, Supabase, MongoDB, SQL Server
Tools: Git, GitHub, GitHub Actions, Postman, Vercel, cPanel, CI/CD
Additional: React Native, Expo, Python, C#, OpenCV, YOLOv8, T-SQL

EDUCATION & LANGUAGES

B.Sc. Computer Engineering | Atatürk University, Türkiye Graduated Jun 2026
Full-Stack Software Engineer Diploma | ALX Oct 2023 – Nov 2024
Languages: Arabic (Native), English (C1), Turkish (C1)
